DETAILED ACTION

1. This action is responsive to RCE received on Oct. 12, 2004. Claims 1-21 were amended. Claims 1-21 are pending examination.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-21 are rejected under 35 U.S.C. 102(e) as being anticipated by Perkowski, U.S. Patent No. 6,625,581.

As to claim 1, Perkowski teaches a method performed by a computer system comprising:

storing a digital version of a mass-produced printed paper, wherein the digital version is displayable on a display device as a likeness of the paper (see col. 18 lines 50-67); and

forming a hyperlink reference within the digital version, wherein the hyperlink reference is associated with an operation of the computer device and with a portion of the version, wherein the version is displayable on a display device as a likeness of the paper and wherein the portion is selectable to cause performance of the operation (see col. 19 lines 1-38).

Art Unit: 2157

As to claim 8, Perkowski teaches a system comprising:

storing a version of a mass-produced printed paper (see col. 18 lines 50-67); and

forming a reference within the version, wherein the reference is a hyperlink associated with an operation and at least a portion of the version, wherein the version is displayable on a display device as a likeness of the paper and wherein the portion is selectable to cause performance of the operation (see col. 19 lines 1-38)

As to claim 15, Perkowski teaches a computer program product comprising a computer program processable by a computer system for causing the computer system to:

store a version of a mass-produced printed paper (see col. 18 lines 50-67); and

form a reference within the version, wherein the reference is a hyperlink associated with an operation and at least a portion of the version, wherein the version is displayable on a display device as a likeness of the paper and wherein the portion is selectable to cause performance of the operation (see col. 19 lines 1-38)and

an apparatus from which the computer program is accessible by the computer system (see col. 19 lines 1-38)

As to claims 2, 9 and 16, Perkowski teaches the method, system and program of claims 1, 8 and 15 respectively wherein the forming comprises:

Art Unit: 2157

forming the reference within the version wherein the portion is displayable on the display device as a likeness of an advertisement within the paper (see col. 17-col. 18).

As to claims 3, 10 and 17, Perkowski teaches the method, system and program of claims 2, 9 and 16 respectively wherein the forming comprises:

forming the reference within the version wherein the hyperlink specifies a website associated with the advertisement (see col. 17-col. 18).

As to claims 4, 11 and 18, Perkowski teaches the method, system and program of claims 1, 8 and 15 respectively wherein the forming comprises:

forming the reference within the version wherein the hyperlink specifies a website and wherein the operation includes displaying the website (see col. 17-col. 18).

As to claims 5, 12 and 19, Perkowski teaches the method, system and program of claims 1, 8 and 15 respectively wherein the forming comprises:

forming the reference within the version wherein the reference specifies a file and wherein the operation includes displaying a visual image in response to the file (see col. 17-col. 18).

As to claims 6, 13 and 20, Perkowski teaches the method, system and program of claims 1, 8 and 15 respectively wherein the forming comprises:

forming the reference within the version wherein the reference specifies a file and wherein the operation includes outputting audio signals in response to the file (see col. 17-col. 18).

Art Unit: 2157

As to claims 7, 14 and 21, Perkowski teaches the method, system and program of claims 1, 8 and 15 respectively wherein the forming comprises:

forming the reference within the version wherein the reference specifies a script and wherein the operation includes executing the script (see col. 17-col. 18 and fig. 4M1-4T1).

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Method, system and computer program product for producing and distributing enhanced media downstreams by Holtz et al., U.S. Patent No. 6,760,916
- Automated interactive classified ad system for the internet by Witek et al., U.S. Patent No. 6,253,188
